GLOBAL TALENT DELIVERY

Skilled SAP Professionals, Your Way

Three engagement models — optimise for cost, speed, or proximity. Mix models mid-project as your needs evolve.

MODEL 01 Nearshore Adjacent time zones · Cultural alignment Certified SAP talent in aligned time zones real-time collaboration with up to 40% cost advantage vs fully onsite. Minimal time-zone friction Language & cultural alignment Rapid agile sprint delivery Easy site visits on demand Competitive blended rate cards Functional Consultants · PMs · Test Leads · Basis Admins	MODEL 02 Offshore 24x7 delivery · Maximum cost optimisation Full-scale delivery centres running round-the-clock deep ABAP talent, up to 60% savings, scalable AMS operations. Follow-the-sun 24x7 AMS Team ramp-up in < 2 weeks Deep ABAP & BTP talent pool ISO-aligned quality gates Joule & AI-certified resources ABAP Developers · BTP Architects · QA Engineers	MODEL 03 Onsite Embedded at your location · Global mobility Senior SAP professionals embedded within your org driving change management, stakeholder alignment, and hands-on delivery. Full client immersion Real-time on-site decisions Change management & training Ideal for go-live & hypercare Global mobility — any country Solution Architects · Program Directors · Change Leads

WHY ELMNTX

The Difference That Delivers

Six reasons our clients trust elmntx over larger consultancies specificity, speed, and no shortcuts.

001 — 120+ SAP Certifications. Zero Sub-contracting. Every consultant deployed holds valid SAP certification in their domain. We never sub-contract — you always get the expert you interviewed, not a substitute. Direct hire guarantee	002 — SAP Joule & BTP AI in Every Engagement elmntx is among the earliest SAP-certified partners to architect and deploy Joule generative AI copilot workflows at production scale — giving clients a genuine AI advantage today. Earliest certified partner	003 — Pre-vetted SAP Talent Live in 5–10 Days From the moment you raise a requirement, elmntx can have a certified consultant onboarded and productive within one business week. Our bench is continuously profiled and globally ready. Fastest time-to-deploy
004 — Upgrade-Safe Architecture by Default Every elmntx delivery follows SAP's Clean Core principles all extensions built on BTP, not in the ABAP stack, keeping your system easy to upgrade and lowering total cost of ownership. BTP-first extensions	005 — MENA-Native, Globally Capable Headquartered in Dubai with offices in KSA, Qatar, India and Europe elmntx understands the regulatory, cultural and operational nuances of the Gulf market that global SIs routinely overlook. UAE · KSA · India · Europe	006 — Nearshore · Offshore · Onsite Your Choice Three fully operational delivery models let you optimise for cost, speed or proximity. Mix models mid-project as your needs evolve elmntx handles consistency across all three. Up to 60% cost saving

How elmntx compares

Criterion	elmntx	Large Global SI	Boutique Reseller
SAP-certified on every role	Always	Varies	Often not
No sub-contracting	Guaranteed	Common	Frequent
Joule AI certified today	Live now	Roadmap 2025+	Not offered
MENA regulatory expertise	Native	Limited	Limited
Talent live in 5-10 days	Standard	4-8 weeks	2-4 weeks
Clean Core by default	Mandatory	Optional	Rarely

SAP Certified 120+ certified — no sub-contracting ever	AI-First Delivery Joule + BTP AI in every engagement	Speed to Deploy Pre-vetted talent live in 5–10 days	Clean Core Future-proof, upgrade-safe architecture	MENA & Global Dubai HQ · KSA · Qatar · India · Europe
