

Bidding, Tendering
Rebuilt by Agentic AI.

Is Your Tender Process Costing You
Time, Money, and
Competitive Edge?

Waste Hundreds of Hours

on repetitive manual evaluation, compliance checks, and endless document chasing per tender

Make subjective award

decisions that silently erode 5-15% of potential value on every contract

Face Unexpected Risks

65% of all downstream project failures and disputes originate in flawed tender decisions

Leave up to 40%

of achievable market savings on the table due to weak benchmarking and intelligence

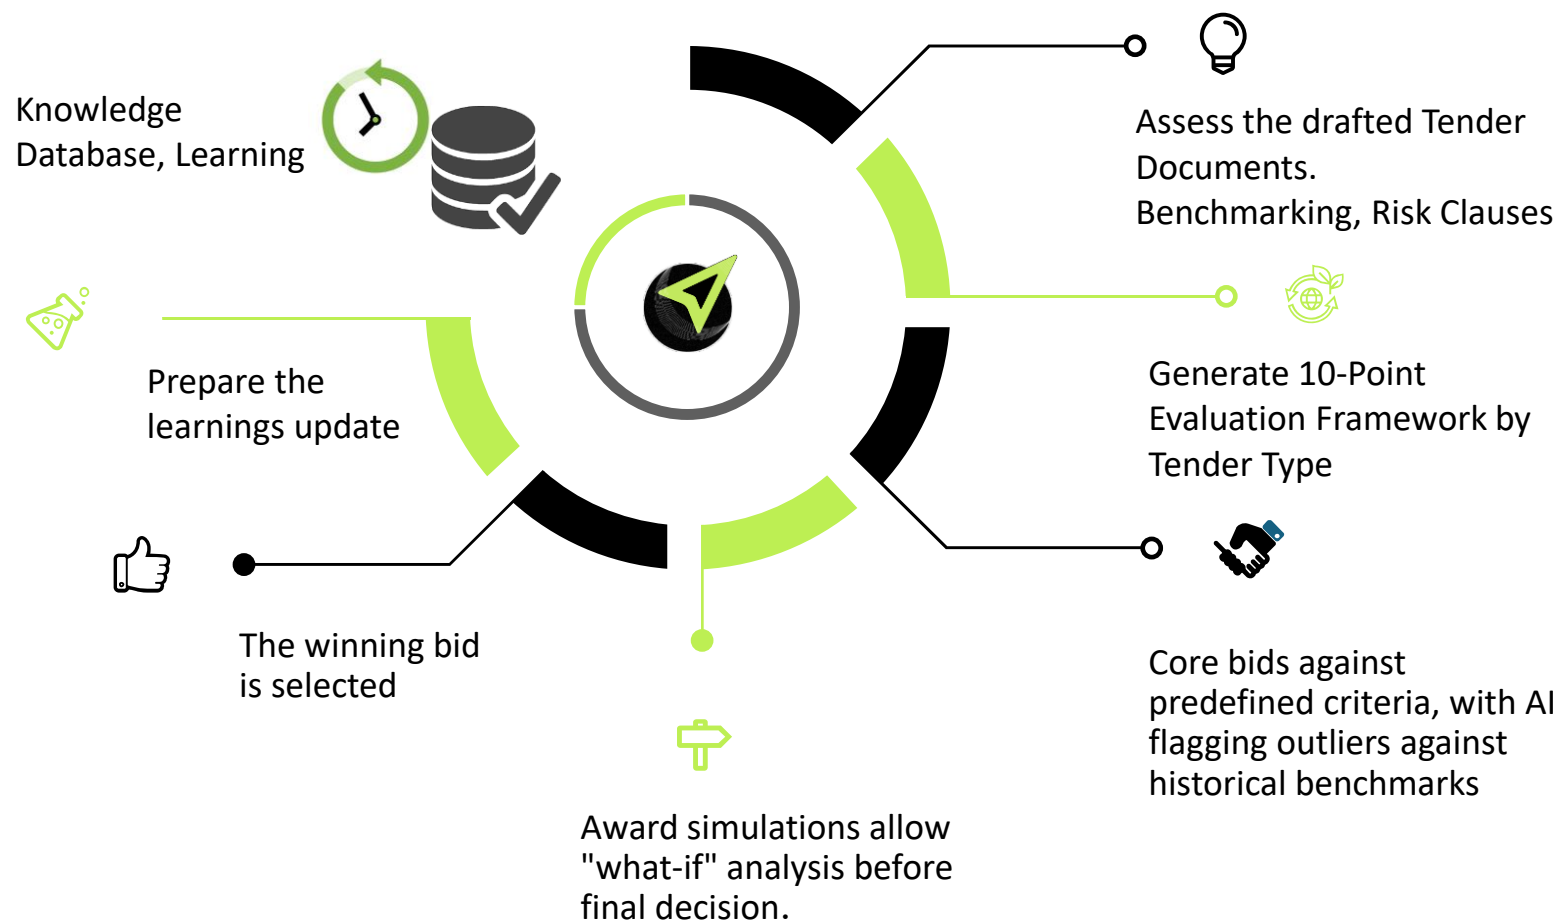

Remain stuck in reactive mode

while forward-thinking competitors deploy Agentic AI to dominate bids and margins

The World's First Agentic Tender Intelligence Platform

**TENZYE is your tireless,
unbiased AI expert.**

RECOMMENDED EVALUATION MECHANISM HIGH

MEAT — Most Economically Advantageous Tender

The tender places a heavy emphasis on technical capability (85% weight) with detailed technical criteria and mandatory certifications, while still retaining a financial component (15%). This profile aligns with a MEAT approach, which balances quality and price for complex infrastructure projects.

Commercial Terms

Score: 30 • NOT COVERED

Commercial terms are absent.

GAPS

No payment terms or schedule (ScoringCriterion id:evalw:...commercial_terms).

No price basis or unit rate information.

KEY RISKS

Inability to assess cash-flow impact and financial exposure.

Eligibility

Score: 40 • MAJOR GAPS

Key eligibility documents are missing, creating a major gap.

STRENGTHS

Financial capacity is well documented (Section 5).

Clear declaration of willingness to comply with tender terms.

GAPS

Missing contractor registration and trade licence (TechnicalRequirement id:req:198e2732_a782_48c9_b61a_24bbf9cd654b.0).

Acme Solutions Ltd.

Recommended

L1 Lowest Price

QCBS Quality and

MEAT Most Economically

QBS Quality Based

LCS Least Cost

FBS Fixed Budget

CQS Consultant Qualification

L1 Lowest Price Bidder

The vendor with the lowest financial bid wins. Quality is assessed on a pass/fail basis only.

JUSTIFICATION

Acme Solutions Ltd. was awarded the contract because it achieved the lowest financial score of 14, which under the L1 mechanism indicates the lowest bid price and therefore the winning position. The competing Unknown Vendor recorded a higher financial score of 16, making its bid less competitive in terms of price. Since quality assessment is limited to a pass/fail criterion and both vendors met the required quality threshold, the decision was based solely on the financial scores. No vendors were disqualified in this evaluation.

The Future of Procurement

Everything you need to
dominate tenders

Smart Tender Ingestion

Drop any PDF/RFP. AI instantly extracts requirements, deadlines, clauses no templates needed.

Agentic Compliance Gatekeeper

One-click validation against 500+ regulations. Flags missing docs or violations in <90 seconds.

Predictive Bidder Intelligence

Shows who will bid, who's likely to win, and who's high-risk — before you publish.

Multi-Dimensional Evaluation Engine

Auto-scores every bid on price, technical, risk, innovation. Fully customizable weightings.

Live Award Simulator

Drag sliders, tweak criteria, instantly see impact on cost, risk, and outcome.

Real-Time Risk Profiler

Deep financial, capacity, litigation, and performance risk score for every bidder.

Market Pulse Benchmarking

Instantly compares your pricing and terms to thousands of similar live & historic tenders.

Win Strategy Agent

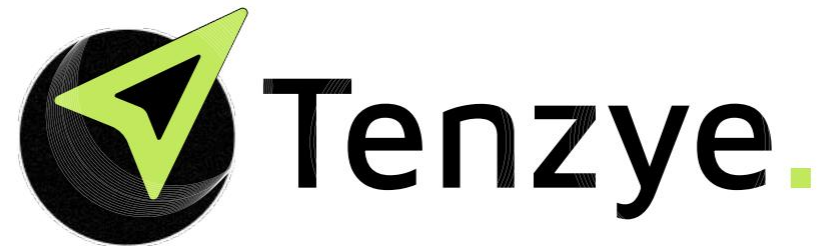

When you're bidding: AI crafts higher-scoring responses and optimizes pricing.
